PROJECTS

➤ **Kuber** (inspired by uber): kuber.up.railway.app

- Developed a real-time ride-booking web application using MERN stack.
- Implemented Socket.io for live driver-rider communication.
- Integrated Google Maps API for route calculation and location search.
- Designed REST APIs for ride management and authentication.
- Deployed the application using Railway cloud platform.

➤ **RideWithUs** (Ride sharing platform for 2 wheelers and 4 wheelers): ridewithus2.vercel.app

- Built a MERN stack ride-sharing platform allowing users to create and discover rides based on travel routes.
- Integrated Google Maps API for live location tracking.
- Implemented LemonSqueezy payment gateway for secure transactions.
- Developed responsive frontend using React.js and Tailwind CSS.
- Deployed frontend on Vercel.
